MINI-ART EXPLORERS

This parent/caregiver class is a great way to spend time together and create an environment where your child can be free in their artistic expression. When discovering inner creativity, it is the process, not the product, that is the most important thing. Each week we'll explore a different theme and variety of materials. Materials such as paint, markers, glitter, glue, stamps and much more will be provided. Mini-Art Explorers will build fine motor skills, decision-making skills and self-confidence. Sign up for Mondays or Wednesdays, not both.

Ages: 1.5-3 Instructor: Kristee Graham

ART EXPLORERS

Children thrive through art! This class is a great introduction to the visual arts and our process-oriented approach to instruction allows children to feel confident with themselves as well as with others while learning verbal, problem solving and classroom skills. Our low teacher/student ratio (1:8) creates a rich learning experience. The class incorporates themes like nature, seasons, stories, animals and more. Children will have lots of messy fun! All art supplies included. Must be potty-trained and have the maturity to create in class setting. Sign up for Mondays or Wednesdays or both. The programming for each class is different.
