

SHERIDAN STATION 20-MINUTE NEIGHBORHOOD

Thank you to the community members who participated in the 20-Minute Neighborhood Task Force meetings during the Fall of 2013. Please join us for the next round of Task Force meetings where we will present and ask for feedback on draft recommendations that address the issues and opportunities we heard from the public during the first round of Task Force meetings. Your input will help define the priority recommendations that will be included in the final Sheridan Station 20-Minute Neighborhood Implementation Strategy.

What is a 20-minute neighborhood? The idea is simple – it's a neighborhood where residents have safe, convenient access within 20-minutes by foot or bicycle to places and services they use daily – shopping, schools, parks, fresh food and more. Please join us to explore opportunities to create a 20-minute neighborhood around the Sheridan Station.
