

Peak Oil: Adjusting To Depleting Petroleum Resources

The Employee's Committee for a Sustainable Lakewood presents
a dynamic Educational Brown Bag Lunch n' Learn Event

"Peak Oil: Adjusting To Depleting Petroleum Resources" Association for the Study of Peak Oil and Gas (ASPO-USA)

August 12, 2008

11:30 – 1:00 pm

Community Room – Lakewood Cultural Center
480 S. Allison Parkway in Lakewood City Commons

Please join the Employee's Committee for a Sustainable Lakewood for an educational presentation regarding the effects of continued depleting energy resources and living in an age of ever increasing energy prices.

Steve Andrews from the Denver-based Association for the Study of Peak Oil and Gas will speak from 11:30 to 1 pm in the Community Room at the Cultural Center.

This event will include a question and answer session about "Peak Oil" and what it means for individuals and communities on many levels, from the way it affects modern food production to the future of urban design.

No RSVP necessary. Open to the Public.

The Employee's Committee for a Sustainable Lakewood was formed to further the mission of the Lakewood Comprehensive Plan. The Committee researches goals of sustainability for City offices and services and researches the vision of where Lakewood should be environmentally in the future. This cross-departmental committee is establishing what the City needs to do in order to become a more sustainable and green city. To learn more, please call Rachel Griffin at 303-987-7734 or Jonathan Wachtel at 303-987-7510.

ASPO-USA is a nonpartisan, proactive effort to encourage prudent energy management, constructive community transformation, and cooperative initiatives in an era of depleting petroleum resources.
