# SUSTAINABILITY AWARDS

2011

COMMUNITY SUSTAINABILITY AWARD

**St. Anthony Medical Campus**

**Centura Health**

**St. Anthony Medical Campus** in Lakewood, when completed, will include St. Anthony Hospital, OrthoColorado Hospital, medical office buildings and a parking garage. The design and construction of the campus utilized LEED (Leadership in Energy and Environmental Design) criteria for energy savings and pollution reduction. The campus is also participating in the Energy Star Program by benchmarking energy consumption with other similar hospitals across the country. Other project highlights include:

- Light harvesting technology to reduce energy consumption
- Use of local and regional building materials
- Use of low emitting adhesives, carpets, and paints to protect air quality
- Wellness services for patients and staff
- Projected \$336 million each year in economic activity for the area
- Projected 2,400 jobs created

## Project Achievement Area

- ☑ Green Design
- ☑ Waste Reduction & Recycling
- ☑ Community Health & Engagement
- ☑ Economic Sustainability
